THE TIGER IN LOVE.

COMMUNICATED BY A RESIDENT AT GENEVA. here a circumstance which proves that there atilbering a' min er winter allideen Wild' beine, and mukes them geotte, fame, and south ferda Advinent, who is well known all over the C tinent, came to this city with his menageries and, we found that he nad made bruch greater advances in the education of these animals than the celebrated Martin; who the fact, did nothing more than play and romp with an old that and a small life with a life tiger he tell in quiet, all all ways asserted that nothing was to be effected with those 5 - and and that her was to be effected tible of any training justos some washers will only take pains with youths, possessing extrastdinary capacity, and neglect others by whom they are not-likely to gain any eclass.

This isstartrom being the case with Advinent, the Pestalozzi and Fellenburg of wild beasts. You should only see when he entered the cage of the great savage hywna, with what commanding assurance he took all sorts of liberties with the formidable brute, and would not affow him. so much as to touch it. But this was not all; the ferocious, animal wis obliged to open his taws to their (ull extent ; Advingut then placed his head between them, and we this position he: fired a pistol close to the ear of the hymna. The aginest, even involuntary, start of the animal, the least movement of the jaw, might have custhum a wound at least. So far was anything of and Tea Pors, for sale at the trockers and G this kind from happening, that the spectators Ware Store of C. & E. D. The same trick Advinent herfornied with the tiger, a powerful and beautiful creature. He did not indeed take the meat from him, but would not let him eat it, and laid bidd of his fore" legs and made him jump and dance on the hinder just as lie pleased.

This Tiggr was extremely graceful in, all his attitudes, positions, and motions; hence, a young lady, of this city, took a landy to make drawing of him from nature. Accordingly, in the mornings when there are but few visitors, she placed herself before the cage of the tiger, fixed her lavely eyes upon his face and waited till he had sumed a fine attlinde or position, nay, when he had lain down and purfer himself up to sleep, she allowed him no rest, but made the keeper. rouse and tease him. In the first days the was extremely angry at this disturbance, but he sonn became more gentie, and when Madamoiselle M placed herself with the portfolio before the cage, he would rise, and walk about, twise himself up, thrust his/paws between the ison para; as if to reach them out to her; the would then throw houself down, playing and relling on his back as cats are accustomed to do, capecially when she sang to him. Such an intimacy had soon taken place between them that Advingnt déclared that Madamoiselle M might venture alone into the cage, for he was sure he would

In ten days she had drawn him in five different positions. Having hinshed her work, she collected her drawings, tied up her portfolio.put on her gloves, and waved a friendly furewell to 192 Washington Backling of mering front rooms on the animal. DR. BRANDRET" & GERUIPE PHILE Pasta Hargendels system will. Lives in the world, to kill, to kill!

FEAHIS system does to dred fing still, and is poseti sed by the very men who laugh at Ductor Sangrado as a visionary fool. The immaculate Faruity ! Let this trith be impressed upon every must that all pain and weakness proceed from the presence of maibid, magness and corrupt busings IN THE BOUT by which the maulainin of the blood is impeded, such that the quity sansible method is to remove them have the stomuch." Downly then take Brandreth's Pills, concocted furth

From the pure products of the earth; They own no after sad alloy,

They often save, but he'er destroy!
BLEEDING ALWAYS IMPROPER, "For the life of the field is in the blood," Levit-icus, chapter avit, v. 11. When the properties of BRANDERTH'S VEGETABLE UNIVERSAL PELLS shall have been appreciated, bleeding will no longer be thought of as a remedy for diseases, for ar violent inflaminations, eight of ten of them will take, in the course of two or three bours, more of the impure humors from the body, by the stomach and bowels, than bleeding to the extent of long ounces could cossibly have done, and it should be remembered that the Pills remove ONLY those parts from the blood which more the cause of indammation; whereas bleeding removes the essential parts also. How great the prostration of all the comment powers after a continue bleeding !iller a dose of this medicine; the body is indeed ightened of a load." Nothing is equal to ridding the vittated humors with a vegetable medicine of this kind, which 84 years have proved never to do mjury, but always good. Is the pulse too high? A done of these Pills will bring it down. Is it too low? the same means will increase it to a proper standard. Is it tremulous, showing nervous excite-ment I the Polls by southing the system will allay it.

Thousands at the most respectable citizens of the United States will be referred to with pleasure by Dr. B. who have for many years been in the habit of being bled as plien as four times in a year; and w me constitutions in consequence, were becoming weaker and weaker, but who, since they have markuse of these Vills, have never tost a group of their precious blood. When any of their old symptoms superred, instead of running to a Doctor and hav g a vein opened, they have swallowed six or eight fills, which soon removed the Pickted humors that acte impeding the blood in its circulation. Those ensible people simply by the use of these invaluable Pills, are increasing every day the powers both of ondy and mind, which, by the practice of bleeding,

were noth becoming dreadfully impaired. The following cases of cure, by the use of Brand-reth's l'ills, alone, are submitted with respect, to the unprejudiced portion of the Boston public:

ASTIMA CURED. The following extraordinary case of Asthma, which is authenticated by seventeen respectable and well known unhabitants d Greenwich, Ct., deserves, by all persons, a care ful nerusel. The most preparced soust own that evidence is on the side of these Pills, which, by the cures they are daily making show there is no neces say ter anymber metheme.

This is to certify that Thomas S. -Brown of Greenwich, Ct., was taken with a cold, numb tecling, on the 18th of June last. He began to cough and raise phiegm and in the course of twenty four nours about two querts of thick white jelly was expectorated. Three physicians in Stamford, Greenwich, and Sawpits, he nounced it a nervous humid spasmodic Asthma, and after prescribing for some time to no effect, the three consulted tegether, and anally declared that they could do him no good; a would and must result is consumption, and death would ensue, and that in a very short time. The p on was excessive in all parts of his hody, and the difficulty in breathing was such as almost to cause strangulation. He was reduced to a mere succession. and fingly gave himself up to death. After being in this miserable state nearly two months, he saw versal Pills, and comediately sent by Capt. J. War ng of Greenwich, for a box, and found relief in the course of a few days, which encouraged him to persevere, and now having taken them for about four months according to the direction, is entirely recovered, and so far as we can judge, in couse quence of laking the allove Pills, which we have also used in our families, and have found them in valueble.
